

III. WRITING (10 POINTS)

The emigration of skilled workers is a real problem for their countries of origin. Write an email to the editor of the web site www.globaldebate.org in which you explain why these people emigrate and suggest ways to encourage them to stay in their own countries.

Mr or Mrs the editor,

It is noticed that the level of skilled workers who emigrate every year is increasing, this can cause so many economical issues for the countries of origin. Well, why skilled workers emigrate to other countries? What are the effects of that problem? And how can we solve it?

Well, the major cause of the brain drain is the economic crisis which pushes skilled people to search for better living conditions. Besides, ambitious youngsters emigrate in order to gain their self respect and to feel how important and useful they are.

However, brain drain has a lot of bad effects on the development of the countries of origin, who spend a lot of money on the education of their best workers, that they will lose them by the end.

As a conclusion, I suggest workers' countries of origin to set up centers that help youngsters to improve their skills and to provide them with financial support to encourage them serving their own countries.
