4

TASK 1: Complete the following paragraph about how your school celebrated Women's Day this year. (4 pts)

On March 8, our school celebrated Women's Day. We did a lot of activities. *First of all, they gave individual roses to each girl that walked into the building, which made them very happy. Second of all, there was a lecture in one of the classes about women's contribution in our society. Third of all, students gave their appreciation words to the female teachers of the school. I was one of the most amusing days in our school!*

.....

.....

.....

TASK 2: (6 pts)

6

You have noticed that parks, green areas and forests are disappearing fast in your region.

Write an article to be published in your school e-magazine about the causes and consequences of this phenomenon. Suggest possible solutions.

..... Green areas are a very important part of every city, yet we find that they're slowly disappearing nowadays... I believe that it has many causes and results:

..... On one hand, the causes of this phenomenon can vary between technological development, since it leads to using these areas to build more companies and business, in addition to people carelessly throwing trash in parks and forests.

On the other hand, this phenomenon leads to ^{some} serious issues on long-term such as health problems that are connected to breathing polluted air, and also psychological problems, due to living in an environment that doesn't have the smallest amount of green spaces.

When it comes to solutions, the best thing we can do is to create more green areas, and working on teaching people about how important these areas are in our lives.

..... To sum up, keeping our environment clean and beautiful is our responsibility, and we shouldn't take lightly.
